January 26, 2009

Mr. Marc Mordue
Fairfax County Health Department
10777 Main Street
Fairfax, VA 22030

Mr. Mordue:

At the request of John McCarthy, I am writing to inform you of the main drain suction inlet configurations of the following hydro therapy spas at the Fairfax County Parks. Each of the following has been tested by our company and all have main drain sumps that are cross connected. We have verified that both jet pumps and circulation pumps on each draw from the cross connected main drains. In addition, each spa currently has VGB approved drain grate covers installed.
